

OYSTER  
AQUACULTURE  
FARMING:  
SURFACE GEAR

# Hexcyl™ Pod

System increases oyster growth rate, taste & quality

Oyster  
farming  
the  
watermen's  
way

## Description

Designed for smaller farms or to allow for easy boat access, Hoopers Island Oysters developed the Hexcyl™ Pod to give oyster growers a competitive advantage.

Featuring three Hexcyl™ baskets connected with two, GoDeep™ GD-11 floats, the Pod converts traditional long-line gear into flexible surface gear. The Pod is one-quarter the size of the HI-Flow system allowing it to be easily deployed, stocked and managed in open waters

## Features & Benefits

- Two doors for easy access to load stock
- High quality 100% virgin UV resistant mesh bags
- Heavy duty construction
- Easily moved to maximize tidal conditions
- Encourages proper water flow
  - Easy to stock and maintain
  - Environmentally friendly materials

Mesh Size	Price Assembled
20mm	\$ 96.00
15mm	\$ 99.00
10mm	\$ 102.00
5mm	\$ 105.00
3mm	\$ 111.00

## Specifications

- Dimension: 11" h x 29" l x 33" w
- Available with 3mm, 5mm, 10mm, 15mm and 20mm mesh bags
- 1.5 L marker makes baskets easy to stock and record growth

## Terms

- Available with one week's notice
- Shipping extra
- Full payment required prior to shipping
- Add 3% for credit card orders
